

Nanaimo Computer Club Meeting – May 3 , 2007

The meeting featured our own Niels Jorgensen with a stellar presentation on Photo Story 3 for Windows. Photo Story 3 allows one to select and place pictures from files onto Photo Story on a slide presentation.

For more information Google Photo Story 3 or use the link below.

As Niels pointed out, Microsoft offer excellent information and directions on the use of Photo Story 3

From

<http://www.microsoft.com/windowsxp/using/digitalphotography/photostory/default.mspx>

“Create slideshows using your digital photos. With a single click, you can touch-up, crop, or rotate pictures. It's that easy! “

“Add stunning special effects, soundtracks, and your own voice narration to your photo stories. Then, personalize them with titles and captions.”

“Small file sizes make it easy to send your photo stories in an e-mail. Watch them on your TV, a computer, or a Windows Mobile–based portable device.”

The evening ended with Niels presenting a Photo Story 3 presentation he developed on “The Empire that was Russia”. **Well done Niels!!!**

For those who missed the meeting please click on Easter 05 on my website.
