

September 09 Meeting

We started off the year with a presentation by Gerald Huppertz, the store manager of Discovery Computer. www.thediscoverystores.com Ph 250 751 0504

Gerald is the good Looking gent at the right front.

Gerald started off by discussing the biggest killer of PC's – dust! Then the rest of the meeting followed with lively discussions on Anti-virus applications and suites, the internet, email, and answers to numerous questions from the floor. Gerald is a fan of the Panda Security suite (\$29.95/year).
